

Safety Data Sheet

Complies with Annex II of REACH - Regulation (EU) 2020/878

SECTION 1. Identification of the substance/mixture and the company/company

1.1. Product identifier

Code: YCH8007
Denomination: VELA BIANCA
Chemical name and synonyms: VELA BIANCA

1.2. Relevant identified uses of the substance or mixture and discouraged uses

Area of use: SU22 – Professional Uses SU21 – Consumer Uses
Product Category: PC35 – Washing and cleaning products (including solvent-based products)
Description/Use: Detergent for sail surfaces

1.3. Information on the safety data sheet provider

Name: MARBEC S.R.L.
Address: VIA CROCE ROSSA 5/i
Location and State: 51037 MONTALE (PISTOIA)
ITALY
tel. +039 0573/959848
fax:
e-mail address of the competent person,
Safety Data Sheet Manager: info@marbec.it

1.4. Emergency telephone number

For urgent information, please contact

MARBEC srl
0573959848 8.30 a.m.-1 p.m. 2 p.m.-6 p.m. or 3348578502
Telephone number for Poison Control Centres available 24 hours a day

SECTION 2. Hazard identification

2.1. Classification of the substance or mixture

The product is classified as hazardous pursuant to the provisions of Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adaptations). The product therefore requires a safety data sheet that complies with the provisions of Regulation (EU) 2020/878. Any additional information regarding risks to health and/or the environment is reported in sections 11 and 12 of this sheet.

Classification and hazard statements:

Eye irritation, category 2

H319

It causes severe eye irritation.

2.2. Label elements

Hazard labelling in accordance with Regulation (EC) 1272/2008 (CLP) and subsequent amendments and adaptations.

Hazard pictograms:

Warnings:

Attention

Hazard statements:

H319

It causes severe eye irritation.

Precautionary statements:

P280

Protect your eyes/face.

P337+P313

If eye irritation persists, seek medical attention.

Ingredients compliant with Regulation (EC) No. 648/2004

Phosphates 5% < C < 15%, anionic surfactants < 5%

2.3. Other hazards

Based on the available data, the product does not contain PBT or vPvB substances in a percentage $\geq$ to 0.1%.

The product does not contain endocrine-disrupting substances in a concentration $\geq$ 0.1%.

SECTION 3. Composition/ingredient information

3.2. Mixtures

Contains:

Identification**x = Conc. %****Classification 1272/2008 (CLP)****POTASSIUM PYROPHOSPHATE**

CAS 7320-34-5

 $10 \leq x < 30$

Eye Irrit. 2 H319

CE 230-785-7

INDEX -

Reg. REACH 01-2119489369-18

DIPROPYLENE GLYCOL**MONOMETHYL ETHER**

CAS 34590-94-8

 $1 \leq x < 3$

Substance with a Community limit of exposure in the workplace.

EC 252-104-2

INDEX -

Eye Irrit. 2 H319

CE 248-983-7

INDEX -

Reg. REACH 01-2119489411-37-0001

The full text of the hazard statements (H) can be found in section 16 of the data sheet.

SECTION 4. First aid measures**4.1. Description of first aid measures**

EYES: Discard any contact lenses. Wash immediately and thoroughly with water for at least 15 minutes, opening the eyelids wide. Seek medical attention if the problem persists.

SKIN: To take off contaminated clothes. Wash immediately and thoroughly with water. If irritation persists, seek medical attention. Wash contaminated clothing before using it again.

INHALATION: Take the subject to fresh air. If breathing is difficult, call a doctor immediately.

INGESTION: Seek medical attention immediately. Induce vomiting only on the advice of the doctor. Do not administer anything orally if the subject is unconscious and unless authorized by the physician.

4.2. Main symptoms and effects, both acute and delayed

No specific information is known about the symptoms and effects caused by the product.

4.3. Indication of the need for immediate medical advice and special treatment

Information not available

SECTION 5. Firefighting measures**5.1. Extinguishing means**

SUITABLE EXTINGUISHING MEANS

The means of extinguishing are the traditional ones: carbon dioxide, foam, dust and water spray.

UNSUITABLE MEANS OF EXTINGUISHING

No one in particular.

5.2. Special hazards arising from the substance or mixture**HAZARDS DUE TO EXPOSURE IN THE EVENT OF FIRE**

Avoid breathing in the combustion products.

5.3. Recommendations for firefighters**GENERAL INFORMATION**

Cool the containers with water jets to prevent the product from decomposing and developing substances that are potentially hazardous to health. Always wear full fire protection equipment. Collect extinguishing water that should not be discharged into the sewers. Dispose of contaminated water used for extinguishing and residual fire according to current regulations.

EQUIPMENT

Normal firefighting clothing, such as an open-circuit compressed air breathing apparatus (EN 137), flame-retardant suit (EN469), flame-retardant gloves (EN 659) and firefighter boots (HO A29 or A30).

SECTION 6. Measures in the event of accidental release**6.1. Personal Precautions, Protective Equipment and Emergency Procedures**

Stop the leak if there is no danger.

Wear appropriate protective equipment (including personal protective equipment referred to in section 8 of the Safety Data Sheet) to prevent contamination of the skin, eyes and personal clothing. These indications are valid both for workers and for emergency interventions.

6.2. Environmental precautions

Prevent the product from entering sewers, surface water, groundwater.

6.3. Methods and materials for containment and remediation

Vacuum the spilled product into a suitable container. Evaluate the compatibility of the container to be used with the product, checking section 10. Absorb the remainder with inert absorbent material.

Provide sufficient ventilation of the place affected by the leak. Disposal of contaminated material shall be carried out in accordance with the provisions of point 13.

6.4. Reference to other sections

Any information regarding personal protection and disposal can be found in sections 8 and 13.

SECTION 7. Handling and storage**7.1. Precautions for safe handling**

Handle the product after consulting all other sections of this safety data sheet. Avoid dispersing the product into the environment. Do not eat, drink, or smoke during use. Remove contaminated clothing and protective equipment before entering eating areas.

7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container. Store closed containers in a well-ventilated place, away from direct sunlight. Store containers away from any

Legend:

(C) = CEILING ; INALAB = Inhalable fraction; RESPIR = respirable fraction; TORAC = Thoracic fraction.

VND = hazard identified but no DNEL/PNEC available; NEA = no expected exposure; NPI = no hazard identified.

8.2. Exposure Controls

Considering that the use of appropriate technical measures should always take priority over personal protective equipment, ensure good ventilation in the workplace by means of effective local suction.

When choosing personal protective equipment, seek advice from your chemical suppliers if necessary.

Personal protective equipment must bear the CE marking certifying its compliance with current standards.

Provide emergency showers with visocular basin.

HAND PROTECTION

Protect your hands with category III work gloves (ref. EN 374 standard).

For the final choice of the material of work gloves, the following must be considered: compatibility, degradation, break-time and permeation.

In the case of preparations, the resistance of work gloves to chemical agents must be checked before use as it is not foreseeable. Gloves have a wear time that depends on the duration and mode of use.

SKIN PROTECTION

Wear long-sleeved work clothes and safety footwear for professional use of category I (ref. Regulation 2016/425 and EN ISO 20344 standard). Wash with soap and water after removing protective clothing.

EYE PROTECTION

It is recommended to wear airtight protective goggles (ref. EN 166 standard).

RESPIRATORY PROTECTION

In case of exceeding the threshold value (e.g. TLV-TWA) of the substance or one or more of the substances present in the product, it is recommended to wear a mask with a type A filter whose class (1, 2 or 3) must be chosen in relation to the limit concentration of use. (ref. EN 14387 standard). If gases or vapours of a different nature and/or gases or vapours with particles (aerosols, fumes, mists, etc.) are present, combined filters must be provided. The use of respiratory protective equipment is necessary if the technical measures adopted are not sufficient to limit the worker's exposure to the threshold values taken into consideration. The protection offered by masks is limited, however.

In the event that the substance in question is odourless or its odour threshold is higher than the relevant TLV-TWA and in an emergency, wear an open-circuit compressed air breathing apparatus (ref. EN 137 standard) or an external air intake respirator (ref. EN 138 standard). For the correct choice of respiratory protective device, refer to EN 529.

ENVIRONMENTAL EXPOSURE CONTROLS

MARBEC S.R.L.	Revision No. 6
YCH8007 – VELA BIANCA	Revision date 08/02/2022
	Printed on 08/02/2022
	Page No. 7/16
	Replaces revision:6 (Revision date: 01/07/2020)

Emissions from production processes, including those from ventilation equipment, should be controlled for compliance with environmental protection legislation.

SECTION 9. Physical and chemical properties

9.1. Information on fundamental physical and chemical properties

Property	Value	Information
Physical State	liquid	
Color	colourless	
Smell	characteristic	
Melting or freezing point	Not applicable	
Initial boiling point	Not applicable	
Inflammability	Not applicable	
Lower explosive limit	Not applicable	
Upper explosive limit	Not applicable	
Flash point	> 90 °C	
Auto-ignition temperature	Not applicable	
ph	11	
Kinematic viscosity	Unavailable	
Solubility	Water soluble	
Partition coefficient: n-octanol/water	Unavailable	
Vapour pressure	Unavailable	
Density and/or Relative Density	1,095 Kg/lit	
Relative vapor density	Unavailable	
Particle characteristics	Not applicable	

9.2. Other information

9.2.1. Information on classes of physical hazards

Information not available

9.2.2. Other security features

VOC (Directive 2010/75/EU)	2.00 % - 23.30 g/litre
VOC (Volatile Carbon)	1.13 % - 13.16 g/litre
Explosive properties	Non-explosive
Oxidizing properties	Non-oxidizing

SECTION 10. Stability and responsiveness

10.1. Responsiveness

There is no particular danger of reaction with other substances under normal conditions of use.

10.2. Chemical Stability

The product is stable under normal conditions of use and storage.

10.3. Possibility of dangerous reactions

Under normal use and storage, no hazardous reactions are to be expected.

10.4. Conditions to be avoided

None in particular. However, follow the usual caution with regard to chemicals.

10.5. Incompatible Materials

Information not available

10.6. Hazardous decomposition products

Information not available

SECTION 11. Toxicological information

In the absence of experimental toxicological data on the product itself, the possible health hazards of the product were evaluated on the basis of the properties of the substances contained, according to the criteria provided for by the reference legislation for classification. Therefore, consider the concentration of the individual hazardous substances that may be mentioned in section 3, to evaluate the toxicological effects deriving from exposure to the product.

11.1. Information on hazard classes defined in Regulation (EC) No 1272/2008

Metabolism, kinetics, mechanism of action and other information

Information not available

Information on probable routes of exposure

Information not available

Immediate, delayed and chronic effects from short- and long-term exposures

Information not available

Interactive effects

Information not available

ACUTE TOXICITY

ATE (Inhalation) of the mixture:
ATE (Oral) of the mixture:
ATE (Cutaneous) of the mixture:

Unclassified (no relevant components)
Unclassified (no relevant components)
Unclassified (no relevant components)

POTASSIUM PYROPHOSPHATE

Target organs

Information not available

Route of exposure

Information not available

SPECIFIC TARGET ORGAN TOXICITY (STOT) - REPEATED EXPOSURE

Does not meet the classification criteria for this hazard class

Target organs

Information not available

Route of exposure

Information not available

DANGER IN CASE OF SUCTION

Does not meet the classification criteria for this hazard class

11.2. Information on other hazards

Based on the available data, the product does not contain any substances listed in the main European lists of potential or suspected endocrine disruptors with effects on human health under evaluation.

SECTION 12. Ecological information

Use according to good working practices, avoiding dispersing the product into the environment. Notify the competent authorities if the product has reached watercourses or if it has contaminated soil or vegetation.

12.1. Toxicity

POTASSIUM PYROPHOSPHATE

LC50 - Fish	> 100 mg/l/96h oncorhynchus mykiss
EC50 - Crustaceans	> 100 mg/l/48h daphnia magna
EC50 - Algae / Aquatic Plants	> 100 mg/l/72h alghe
NOEC Chronic Pisces	100 mg/l oncorhynchus mykiss
NOEC Chronic Algae / Aquatic Plants	> 100 mg/l alghe

sodium cumen sulfonate

LC50 - Fish	> 1000 mg/l/96h
EC50 - Crustaceans	> 1000 mg/l/48h
EC50 - Algae / Aquatic Plants	310 mg/l/72h

12.2. Persistence and degradability

DIPROPYLENE GLYCOL MONOMETHYL
ETHER

Water solubility 1000 - 10000 mg/l

Quickly degradable

POTASSIUM PYROPHOSPHATE

Water solubility > 10000 mg/l

Degradability: data not available

sodium cumen sulfonate

Quickly degradable

12.3. Bioaccumulation potentialDIPROPYLENE GLYCOL MONOMETHYL
ETHER

Partition coefficient: n-octanol/water 0,0043

sodium cumen sulfonate

Partition coefficient: n-octanol/water 1.1 Log Kow

12.4. Mobility in soil

Information not available

12.5. Results of the PBT and vPvB assessmentBased on the available data, the product does not contain PBT or vPvB substances in a percentage $\geq$ to 0.1%.**12.6. Endocrine Disrupting Properties**

POTASSIUM PYROPHOSPHATE

Ecology - water: Product that does not present any particular risk to the environment. Phosphate is a nutrient for plants and therefore can promote the growth of phytoplankton in water.

Based on the available data, the product does not contain any substances listed in the main European lists of potential or suspected endocrine disruptors with effects on the environment under evaluation.

12.7. Other adverse effects

Information not available

SECTION 13. Disposal considerations**13.1. Waste treatment methods**

MARBEC S.R.L.	Revision No. 6
	Revision date 08/02/2022
YCH8007 – VELA BIANCA	Printed on 08/02/2022
	Page No. 13/16
	Replaces revision:6 (Revision date: 01/07/2020)

Reuse, if possible. Product residues are to be considered hazardous special waste. The hazardousness of waste containing part of this product must be assessed in accordance with the applicable legal provisions.

Disposal must be entrusted to a company authorized to manage waste, in compliance with national and possibly local legislation.

CONTAMINATED PACKAGING

Contaminated packaging must be sent for recovery or disposal in compliance with national waste management regulations.

SECTION 14. Transportation Information

The product is not to be considered dangerous under the current regulations on the transport of dangerous goods by road (A.D.R.), by rail (RID), by sea (IMDG Code) and by air (IATA).

14.1. UN number or ID number

Not applicable

14.2. Official UN transport designation

Not applicable

14.3. Transport hazard classes

Not applicable

14.4. Packaging group

Not applicable

14.5. Hazards to the environment

Not applicable

14.6. Special precautions for users

Not applicable

14.7. Bulk shipping in accordance with IMO acts

Information not applicable

SECTION 15. Regulatory Information

15.1. Laws and regulations on health, safety and the environment specific to the substance or mixture

Seveso Category - Directive 2012/18/EU: None

Restrictions on the product or substances contained in Annex XVII Regulation (EC) 1907/2006

Product
Point 3

Regulation (EU) 2019/1148 – on the marketing and use of explosives precursors

Not applicable

Sostanze in Candidate List (Art. 59 REACH)

Based on the available data, the product does not contain SVHC substances in a percentage $\geq$ to 0.1%.

Substances subject to authorisation (Annex XIV REACH)

None

Substances subject to export notification Regulation (EU) 649/2012:

None

Substances subject to the Rotterdam Convention:

None

Substances subject to the Stockholm Convention:

None

Health Checks

Workers exposed to this chemical agent dangerous to health must be subjected to health surveillance carried out in accordance with the provisions of art. 41 of Legislative Decree 81 of 9 April 2008 unless the risk to the safety and health of the worker has been assessed as irrelevant, in accordance with the provisions of art. 224 paragraph 2.

Classification for water pollution in Germany (AwSV, vom 18. April 2017)

WGK 1: Not very dangerous for water

15.2. Chemical Safety Assessment

MARBEC S.R.L.	Revision No. 6
YCH8007 – VELA BIANCA	Revision date 08/02/2022
	Printed on 08/02/2022
	Page No. 15/16
	Replaces revision:6 (Revision date: 01/07/2020)

A chemical safety assessment has been prepared for the following substances contained in the mixture:
Potassium Pyrophosphate

SECTION 16. Other information

Text of the hazard statements (H) mentioned in sections 2-3 of the sheet:

Eye Irrit. 2 Eye irritation, category 2
H319 It causes severe eye irritation.

LEGEND:

- ADR: European Agreement for the Carriage of Dangerous Goods by Road
- CAS: Chemical Abstract Service Number
- EC: Identification number in ESIS (European Repository of Existing Substances)
- CLP: Regulation (EC) 1272/2008

Note to the user:

The information contained in this sheet is based on the knowledge available to us at the date of the last version. The user must ensure that the information is suitable and complete in relation to the specific use of the product.

This document should not be construed as a guarantee of any specific property of the product.

Since the use of the product does not fall under our direct control, it is the user's obligation to observe the laws and regulations in force on hygiene and safety under their own responsibility. They do not accept responsibility for improper use.

Provide adequate training to personnel involved in the use of chemical products.

CLASSIFICATION CALCULATION METHODS

Chemical and physical hazards: The classification of the product has been derived from the criteria established by the CLP Regulation Annex I Part 2. The methods for evaluating the chemical and physical properties are given in section 9.

Health hazards: The classification of the product is based on the calculation methods set out in Annex I of CLP Part 3, unless otherwise indicated in section 11.

Environmental hazards: The classification of the product is based on the calculation methods set out in Annex I of CLP Part 4, unless otherwise indicated in section 12.

Changes from previous revision

Changes have been made to the following sections:

01 / 02 / 09 / 11 / 12 / 15 / 16.
